Information Shared with Restaurants

When you make a restaurant reservation or execute online food ordering transaction through our Services, your information is provided to us and to the restaurants with whom you choose to reserve. In order to facilitate your reservation and online food order processing, we provide your information to that restaurant in a similar manner as if you had made a reservation or food order directly with the restaurant. If you provide a mobile phone number, restaurants or Restaguru may send you text messages regarding your reservation or order's delivery status. Some restaurants also require you to provide credit or debit card account information to secure your reservation. When you make a restaurant reservation or online food ordering transaction through our Services and/or make a payment to a restaurant through our Services, we may also share with the restaurants additional information, such as information about your dining preferences and history or information that we collect from third-parties.

Information you choose to share with a restaurant when you make a reservation and/or pay a restaurant through our Services may be used by the restaurant for its own purposes. We do not control the privacy practices of restaurants. Please contact the restaurant directly if you want to learn about its privacy practices.

Payment Card Information

To use certain of our Services, such as to make reservations at certain restaurants and to make payments to certain restaurants, we may require credit or debit card account information. By submitting your credit or debit card account information through our Services, you expressly consent to the sharing of your information with restaurants, third-party payment processors, and other third-party service providers (including but not limited to vendors who provide fraud detection services to us and other third parties), and you further agree to the following terms:

- When you use a credit or debit card to secure a reservation through our Sites, we provide your credit or debit card account information (including card number and expiration date) to our third-party payment service providers and the applicable restaurant.
- When you initially provide your credit or debit card account information through our Services in order to use our restaurant payment services, we provide your credit or debit card account information to our third-party payment service providers. As explained in our Terms of Use, these third parties may store your credit or debit card account information so you can use our restaurant payment services through our Services in the future.
- For information about the security of your credit or debit card account information, see the "Security" section below.

Analytics and tailored advertising

To help us better understand your use of the Services, we may use third-party web analytics on our Services, such as Google Analytics. These service providers use the sort of technology described in the "Automatically-Collected Information" Section above. The information collected by this technology will be disclosed to or collected directly by these service providers, who use the information to evaluate our users' use of the Services. We also use Google Analytics as described in the following section. To prevent Google Analytics from collecting or using your information, you may install the Google Analytics Opt-Out Browser add-on.

Tailored Advertising

Third parties whose products or services are accessible or advertised via the Services may also use cookies or similar technologies to collect information about your use of the Services. This is done in order to help them-

- Inform, optimize, and serve ads based on past visits to our website and other sites and
- Report how our ad impressions, other uses of ad services, and interactions with these ad impressions and ad services are related to visits to our website. We also allow other third parties (e.g., ad networks and ad servers such as Google Analytics, OpenX, PubMatic, DoubleClick and others) to serve tailored ads to you on the Services, and to access their own cookies or similar technologies on your computer, mobile phone, or other device you use to access the Services. We neither have access to, nor does this Privacy Policy govern, the use of cookies or other tracking technologies that may be placed by such third parties. These parties may permit you to opt out of ad targeting. If you are interested in more information about tailored browser advertising and how you can generally control cookies from being put on your computer to deliver tailored advertising (i.e., not just for the Services), you may visit the Network Advertising Initiative's Consumer Opt-Out Link, and/or the Digital Advertising Alliance's Consumer Opt-Out Link to opt-out of receiving tailored advertising from companies that participate in those programs. To opt out of Google Analytics for Display Advertising or customize Google Display Network ads, you can visit the Google Ads Settings page. Please note that to the extent advertising technology is integrated into the Services, you may still receive ads even if you opt-out of tailored advertising. In that case, the ads will just not be tailored to your interests. Also, we do not control any of the above opt-out links and are not responsible for any choices you make using these mechanisms or the continued availability or accuracy of these mechanisms.

When accessing the Services from a mobile application you may also receive tailored in-application advertisements. Each operating system: iOS, Android and Windows Phone provides its own instructions on how to prevent the delivery of tailored in-application advertisements. You may review the support materials and/or the privacy settings for the respective operating systems in order to opt-out of tailored in-application advertisements. For any other devices and/or operating systems, please visit the privacy settings for the applicable device or operating system or contact the applicable platform operator.
